

Boxgrove NP Meeting

8th November 2017

Present : DL/MC/GD/HB/MB/CT

- 1 Meeting held to discuss results of the Reg 14 consultation and agree how these affect our draft plan. DL thanked the team for manning the consultation sessions in his absence.
- 2 All the comments will be included in a spreadsheet compiled by MC and include our decision and resulting change or otherwise in the draft plan. This will form part of a consultation statement included in the NP documentation.
- 3 MC also pointed out that at the next stage Reg 15 we should also capture positive supportive comments to elements of the plan.
- 4 It was agreed to follow CDC's advice and include the Old Granary and Crockerhill 'windfall sites' as separate policies within the plan as these are outside of the settlement boundary. Also, that we would remove the Halnaker settlement area.
- 5 During the meeting we discussed and agreed the comments from CDC, SDNA, Historic England etc, but due to lack of time it was resolved that MC would consider the other comments, and include in the response spreadsheet for our review before proposing the next version of the draft before the next PC meeting on Dec 4. This would be added to our website.
- 6 Action. MC will advise when draft responses compiled and published.
- 7 Post meeting suggestion by DL. As many of the responses erroneously mentioned that we failed to refer to the historic context of the parish and the conservation areas so maybe we should include the CA appraisals at least in part in the body of the NP rather than an appendix.
