

Steering Group Meeting 19th December 2016

Present DL/MC/CT/GD/HB/MB/HP/DB

Update

1. PC meeting Sept 5 2016 requested we pursue alternative sources of funds to contribute to the SEA.
2. Nov 25 Goodwood agreed to contribute £3K. MC seeking suitable consultants.
3. Traffic calming group now in place. Their objective will be to develop a detailed plan for Boxgrove and Halnaker to address the residents key concern of reducing traffic speeds.
4. Planning. Since we last met Bargate Homes have now started to put some detail on the Priors Acre development and are having some limited consultations with a few local residents. The Coalyard site now has planning permission after being red carded.
5. Summary
 - a. We now have funds
 - b. We still need to find a suitable consultant. Action MC
 - c. We still have an option of whether to include the housing scheme or proceed with the plan without it. Our majority decision after much discussion was that we should proceed with the housing and the road diversion, as this was the will of the residents at our last consultation. This gives us the best chance of being in control of future additional development in the Parish which we will be called upon to provide in the near future.
 - d. We agreed to review the situation at the end of January 2017 dependent upon our success with an appointment of a consultant and their advice. Action DL/MC/CT
